CONVERSATION

The ironies of simplicity. To achieve simplicity, you begin with complexity. From there we learn to know what is necessary and which are not. Simplicity is expensive. It appears "less", but it demands accuracy in the "less" to be that perfect "simple". Just like poetry - fewer words that speaks for many. That pursuit of accuracy and perfection can be thought and time consuming, technologically demanding and financially elusive.

Simplicity often comes across minimal and cold. In fact, simplicity cannot become unless it uncovers and fulfills core human needs and emotions that are often hidden and complex. Simplicity is not simple.

HELLO

Thank you for choosing to stay with us. We hope you will feel comfortable and enjoy every aspect of our services and amenities.

Many words have been used to describe the design of this hotel: modern, elegant, beautiful, simple, comfy, spacious, instagrammable...etc. Thankful for them, we think these words are reflections of our intention and goal: simplicity. Simplicity is not a style, but a design philosophy. A mindset and way of doing things that begins and ends with the joy and needs of the user first and foremost.

From lobby design, room decor, 24 hours restaurant and cafe, check in experience, all nett pricing policy, amenities, down to the details of toothbrush, power plugs laundry and nowadays health protocols, we always ask this question first and last: How can we meet our guest needs in a way that is comfortable, obvious and pleasurable for them? We make sure you can what you need easily and comfortably and when you need it. But that cannot be all. Simplicity has a human touch, and in our case it is coffee (hint: no instant coffee).

If there is anything else we can do for you, please call us any time at ext.111. We are glad to have you.

IVAN ANDRIES, General Manager

WHAT'S UP AT GAIA COSMO
